the smart advantage of **LUXUS**flor

Benefit at Real Life

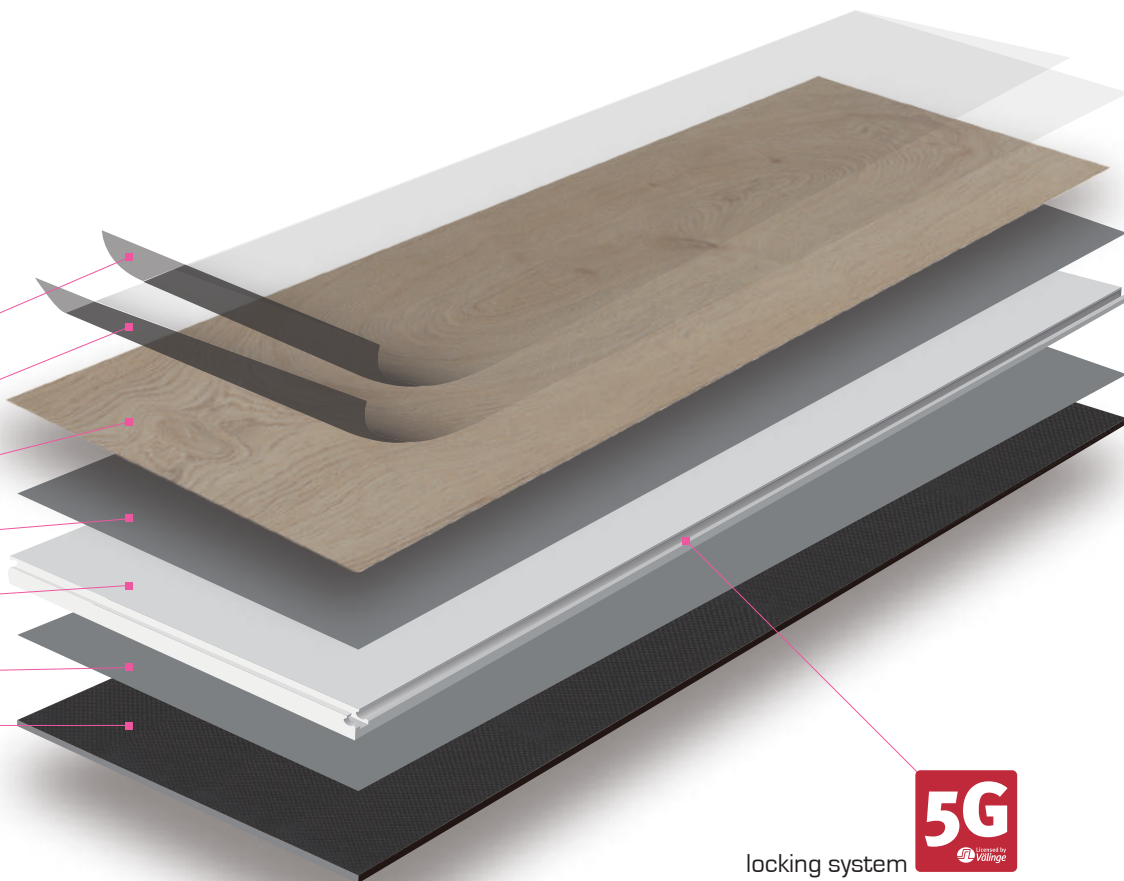

-  waterproof
-  zero formaldehyde
-  anti bacterial
-  anti slippery
-  silent, noise reduction
-  anti scratch
-  fire retardant
-  stability & strength
-  easy & quick installation
-  eco friendly & sustainability

-  natural variety
-  real wood sensation
-  ultra high definition
-  comfort
-  performance

about extremus series of **LUXUSflor**
is engineered stone polymer core construction process consists of balancing layers of vinyl below and above the core. eSPC core is much more stable dimensionally in terms of performance and provides better underfoot feels. The best thing about the eSPC structure is that it keeps the rigid character of SPC and adds the soft touch of LVT. This is a premium eSPC that offers better embossing options, great sound absorption and a thicker product overall.

eSPC structure

- 1 Double Protective Layer
- 2 Transparent Wear Layer
- 3 HD Printing Decor Film
- 4 Silent LVT
- 5 SPC Core
- 6 LVT Balancing Layer
- 7 IXPE Cushion Underlayment

LE 82004

extremus

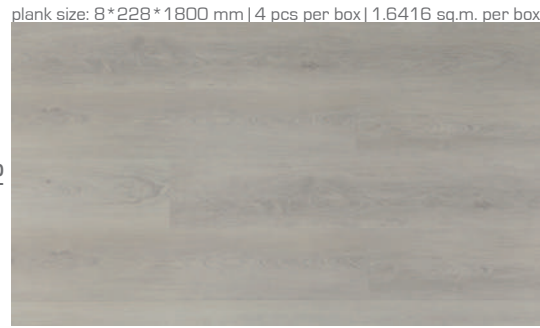

offers excellent foot feel, exceptional sound absorption and is ideal for areas that require quiet.

- performance

about natural plus series of LUXUSflor is Stone Polymer Core flooring contains a blend of natural limestone powder and polyvinyl chloride, with a core which produces a more stable composite material. Because it is made with completely waterproof materials, it is immune to expansion and contraction, even in areas with moisture. the wear and color films are placed on the SPC core after that extruding E.I.R finish bring the better real feeling for SPC flooring. Stable aspect, various beautiful colors, real wood surfaces, comfortable facilities.

SPC structure

- 1 Double Protective Layer
- 2 Transparent Wear Layer
- 3 HD Printing Decor Film
- 4 SPC Core
- 5 IXPE Cushion Underlayment

maintenance

NEVER use wax or oil based cleaning agents.

All purpose cleaners are not recommended as they can dull your floor's finish or leave a hazy residue.

Use furniture protectors to reduce indentation and walk off mat at the entrance to reduce the amount of dirt brought into your home.

Do not use a mat that has a rubber or latex back as they may permanently stain your floor.

Do NOT adhere any tape to the face of the floor as it will damage the finish.

LUXUSflor recommends Bona brand cleaning products which are widely regarded as the best cleaning solution for urethane finish flooring.

Sweep, vacuum or dust mop regularly.

Use walk off mats at entrance doors and in front of kitchen sinks.

Install proper felt protectors under chair and furniture legs to prevent scratching.

Close curtains or blinds to limit direct sun exposure.

installation

Scan the QR code and view the online installation video for your floor.

Certificate

Test Method	Test Item	Result
EN 13501	Fire reaction	Bfl-s1
